The Elegant Estate

Electronic Lifestyle Associates is a comprehensive entertainment, automation and technology integration firm for residential and commercial environments.

We “**plan-the-work**” with detailed engineering, then “**work-the-plan**” by precisely coordinating with clients, designers, contractors and trade professionals.

From concept to completion we oversee finite project details then back it with our concierge support, ensuring satisfaction and enjoyment for years to come.

Let our experience perfect yours!

"Best Engineered Home"

The eia Process

COLLABORATION:

We listen carefully while asking targeted questions. These relaxed yet focused meetings are consultative in nature as we seek to understand the functional, aesthetical, and budgetary project parameters.

DESIGN:

Our easy to understand project engineering help educate and showcase all components, their locations, and how they will integrate within the environment. Quotations are presented with line item detail.

ENGINEERING:

We plan-the-work! Our experienced engineering team executes all the necessary documents and drawings to coordinate with architects, interior designers and trade professionals. We keep projects on time and on budget.

EXECUTION:

We work-the-plan! No matter how challenging or complex the final vision is, we execute all facets of the project efficiently and accurately. Oversight of associated trades ensures efficiencies and execution meets our standards.

CONCIERGE SUPPORT:

Our system engineering allows for rapid cloud-based support and updates. Enjoy the highest level of system performance for years to come through our VIGILANCE or ACCUITY maintenance programs. Need help, it's only a text message away.

CONCIERGE SUPPORT

The single most important component ela offers is us. Over 20 years of experience, proven processes, and passion to exceed expectations has created an ever growing family of ela clients and their personal referrals.

Just like your cell phone, your system requires updates and basic maintenance. Our service contracts are based upon your system architecture. We offer various support options to fit your goals and budget to keep your system enjoyable and operational for many years to come.

With our impressively prompt support and the best long term service options in the industry, we exceed even the most demanding clients expectations.

*" This was our second whole home project with ela.
The automation & control is first class and simple to use.
we tell everyone how impressed we are with ela!"*

AUTOMATION

Smart automation provides intuitive & automated control of virtually any system found in the home, through one simple and convenient control platform accessible from your smart phones, tablets or handheld remotes.

Automation is commonly applied to control system for lighting, music, video, window treatments, HVAC and surveillance cameras but there are also options to control more personalized systems like your pool, spa, garage doors, snow melt systems, wine cellar and more.

LIGHTING DESIGN & CONTROL

Impressive lighting design and control solutions are personalized to your home's design. Every home has a personality and we want to illuminate it.

Controlling your home's lighting from intuitive keypads, occupancy/vacancy sensors and scheduled automation creates beauty, simplicity and energy savings.

Sheer 3% Open

Privacy Blackout

MOTORIZED WINDOW TREATMENTS

Motorized shades and blinds are the most elegant and efficient control of natural light and privacy throughout your home.

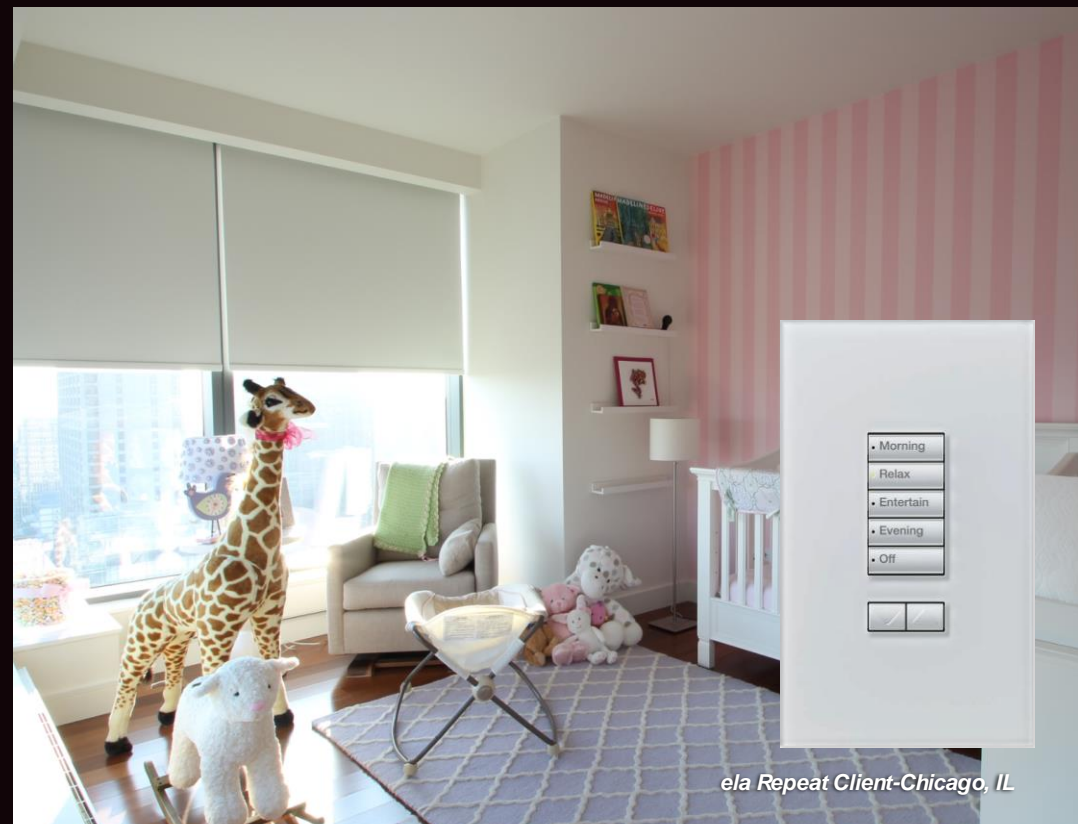

With the touch of a button or a scheduled event, your window treatments will close to reduce visual glare, heat buildup or add instant privacy. Love to see the sunrise or sunset? We can schedule that automatically!

MUSIC DISTRIBUTION

Music Distribution allows you to listen to music in any room in your home, inside or out! Control of your music is simple and intuitive by means of numerous devices, including the ever-present smart phone.

Whether the speakers are placed in the walls, ceiling, or flowerbeds they can be designed to be completely invisible or blend into the environment, minimizing the visual distraction while maximizing audio nirvana.

Millennium Legacy Loft

VIDEO DISTRIBUTION

Where do you need that gorgeous new TV? Do you need multiple TV's in a sports media room? The picture is going to look stunning when it's turned on, but what about when you're not watching it? We make TV's disappear or blend seamlessly with the rooms decor.

At ela we make it simple, gorgeous and sometimes..... invisible.

"Thanks ela for making this our favorite place on earth to relax and enjoy life with family and friends."

ela Repeat Client-Lemont, IL

The Outdoor Oasis

OUTDOOR ENTERTAINMENT

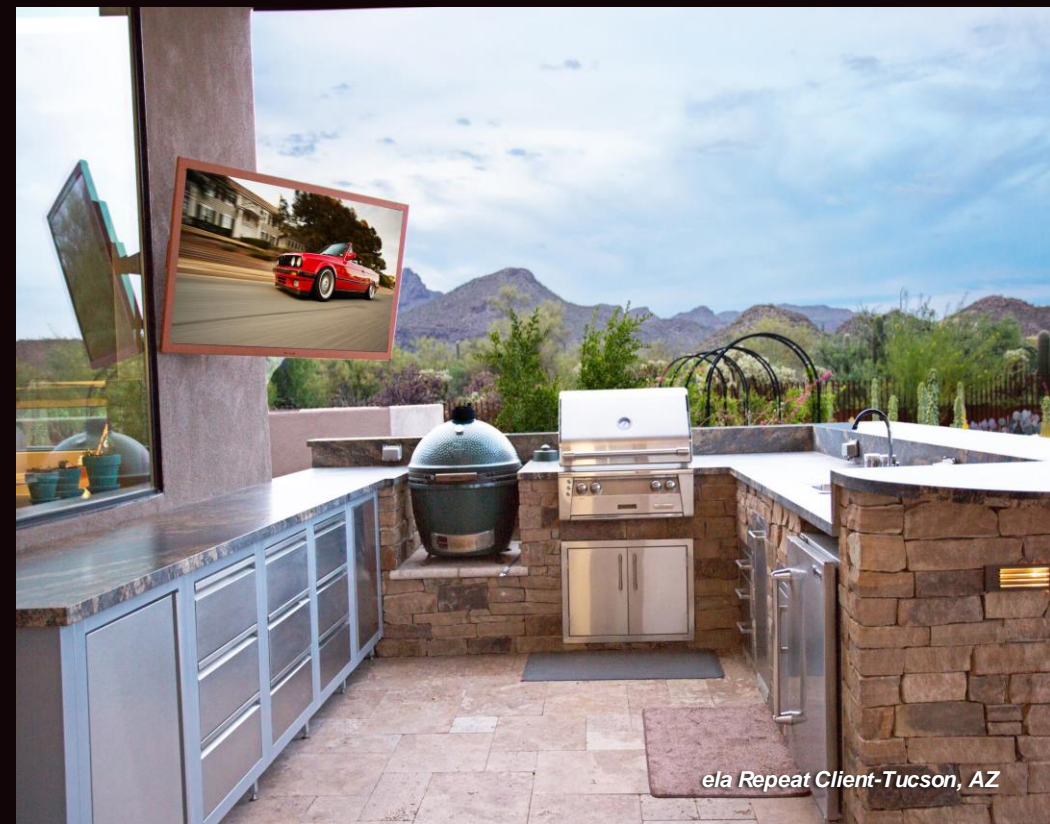

The music sounds incredible, it seems to come from everywhere and yet the speakers are nowhere to be seen.

Quality speakers and proper placement allow guests to converse while still enjoying the music. Hear a great song, turn it up and let the neighbors know they are late for the after-party.

"We definitely feel secure seeing all of our cameras through the TV's or on phones from anywhere."

"Great Work ela!"

ela Client-Chicago, IL

Bespoke Bucktown Residence

SURVEILLANCE SYSTEMS

Protect your family & property! By recording your cameras you capture the evidence necessary to respond to vandalism, theft and porch pirates! View your cameras from anywhere right from your smartphone!

Today's surveillance cameras are spectacular! We help you select the correct cameras and options to maximize functionality and budget.

ela Client-Long Grove, IL

SURVEILLANCE SYSTEMS

"We really appreciate the ability to see & talk to visitors from all entry points then buzz them in with our cell phone's !"

ela Client-Wilmette, IL

Wilmette Lakefront Living

ACCESS CONTROL

Eliminate keys while controlling access to your home with smart locks using Bluetooth, keypads, and biometric solutions. Update the defined user access with cloud based options or remotely allow access or track who entered and when.

Did you forget to close the garage door? You will be notified if you did and you can close the door remotely from anywhere or open it for guests. Have a gated driveway? No problem. We have solutions for every situation.
